Dear Sir:

Further to an Interview of the above-referenced case on November 16, 2004, Applicants submit this Statement Of The Substance Of The Interview.

Applicants concur with the substance as reported by the Examiner, the text of which and attachments thereto are incorporated in this Statement, and believes that it is a proper recollection of the items that it addresses. See MPEP 713.04 (items 1-5 and 7).

Applicants supplement the Interview Summary to address MPEP 713.04, item 6, "a general indication of any other pertinent matters discussed," in order to make the Interview Summary a complete recollection. Specifically, the record should reflect that the parent application, now U.S. Patent No. 6,122,665, is in litigation, which is the reason that Applicants' representative requested the interview and expedited handling of the applications.

No specific information relating to the validity of the '665 patent been provided in that litigation.

Respectfully submitted,
